

SUPPORTS HEALTHY HEART[#]

Although there is scientific evidence supporting the claim, the evidence is inconclusive.

INDICATIONS

- ✓ Helps support cardiovascular health*
- ✓ Helps regulate lipid metabolism*
- ✓ Antioxidant effect*

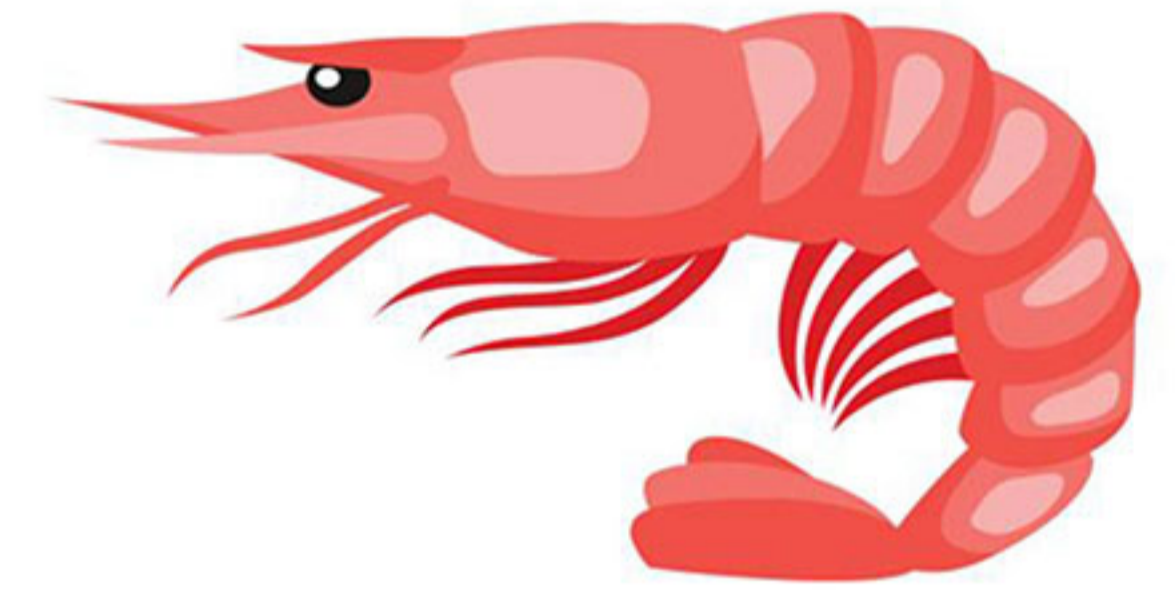

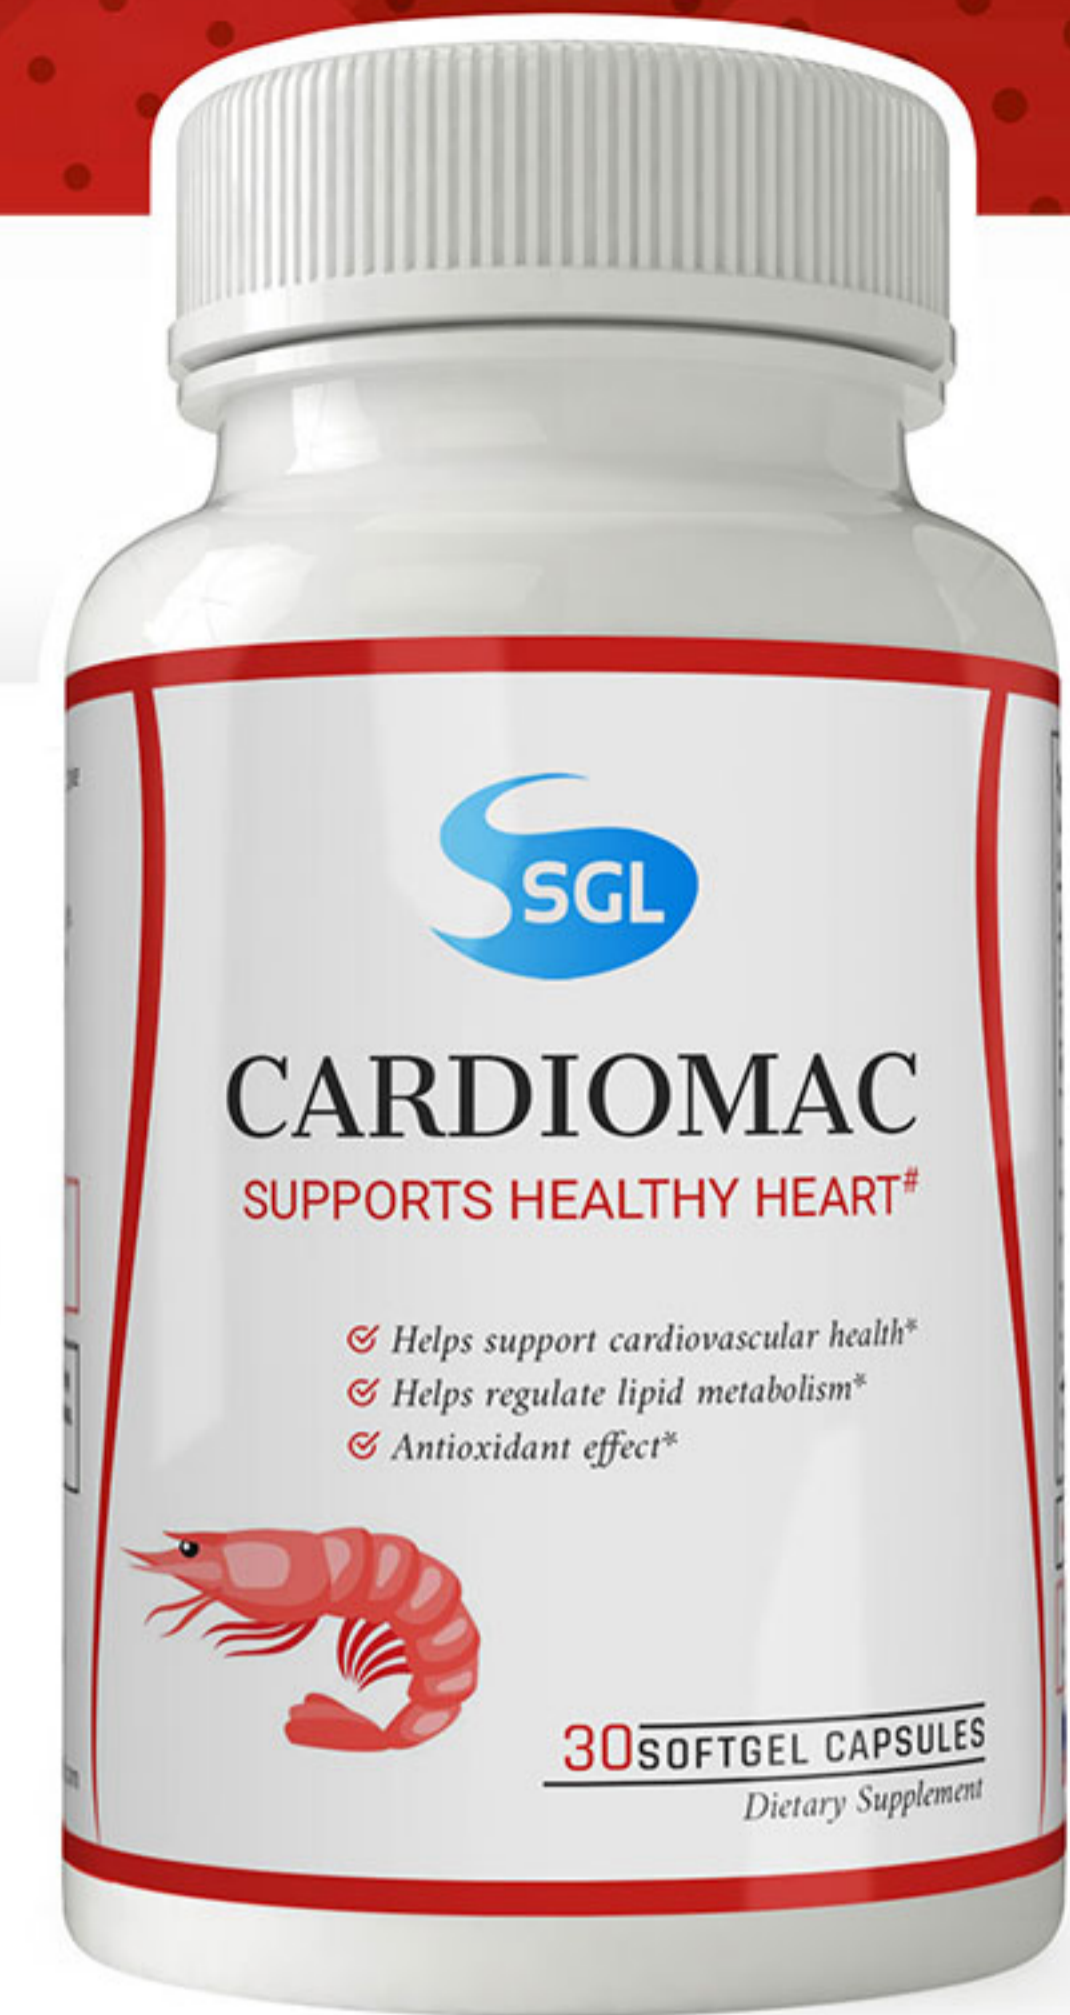

TARGET AGE GROUPS

For Young, Adults and Seniors

SGL's Cardiomac is right choice for your Omega-3 supplement needs. Now get more bioavailable omega-3 for less dollars. Avoid fishy burps that come with fish oil omega-3 supplements. The product comes with less Krill smell and delicious orange flavour. Krills are naturally harvested and hence do not burden you with sea pollutants.

SGL's Cardiomac is a rich source of omega-3 fatty acids. The Krill oil is considered as better alternative to fish oil and provides all benefits of fish oil but at lower doses. Krill oil possesses EPA and DHA which are found in fish oil and these fatty acids are naturally functionalised in krill oil by phosphate group at one end of fatty acids. This guides them to better absorption in the cells and therefore, we call it smart Omega-3 supplement for healthy heart.

SGL's Cardiomac allows you to take Krill oil in the range of 1-3 grams daily, the range which is mostly used in clinical trials suggesting its benefits in human health. The krills are tiny oceanic creatures and naturally offer less contaminated ingredients with sea pollutants as compared to fish sources which have greater chances of accumulation owing to their bigger size and lifespan. SGL's Cardiomac also contains small amount of Astaxanthin, a naturally occurring and most stable form of carotenoid and a better antioxidant as compared to other carotenoids like lutein and zeaxanthin.
